SUMMARY

Front-End Developer with 2 years of experience in React.js, skilled in building engaging and user-friendly web interfaces. Passionate about continuous learning and working in a dynamic environment, with a strong desire to contribute innovative ideas to projects

EDUCATION

IT Engineering In Homs University [2022 - Ongoing]

PROJECTS

- **E-Commere**

Developed a modern e-commerce platform with robust features, including dashboard to management Categories and Products, multi-user roles with permission control. Built secure authentication systems for both customers and admin users. ([Live Demo](#)) ([Source Code](#))

- **IMDb-Clone**

A sleek and responsive movie platform built with Redux, offering theme modes and adaptive design for an immersive experience. Explore films effortlessly with an intuitive UI inspired by modern streaming services. ([Live Demo](#)) ([Source Code](#))

- **Personal Portfolio**

A vibrant and fluid design, blending sleek animations, smooth transitions, and modern responsiveness for an engaging user experience. Creativity meets interactivity in a visually stunning interface! ([Live Demo](#)) ([Source Code](#))

SKILLS

- React.js, Redux.
- Bootstrap, Tailwind.
- Problem Solving
- Teamwork
- Communication

GOAL

Aim to continuously refine expertise in front-end development by exploring innovative web design techniques and staying current with emerging trends. Focused on creating intuitive, user-friendly interfaces that enrich user experience and experimenting with cuttingedge visual design tools.
