SUMMARY

Front-End Developer with 2 years of experience in React.js, skilled in building engaging and user-friendly web interfaces. Passionate about continuous learning and working in a dynamic environment, with a strong desire to contribute innovative ideas to projects

EDUCATION

IT Engineering In Homs University [2022 - Ongoing]

PROJECTS

- **NREP Homs**

A National Real Estate Platform In Homs County. Developing a comprehensive platform to automate real estate tasks in the County, managing the work of brokers, realtors, and agencies, and providing numerous detailed reports and statistics on an ongoing basis. The new government visual identity was also implemented in the platform.

- **Omranak**

A real estate website based in Syria. It positions itself as a trusted partner for property services, offering to help users buy, sell, and rent properties.

The site lists various types of real estate, including apartments, villas, and land, with details on location, size, features, and price. **Omranak**

- **Personal Portfolio**

A vibrant and fluid design, blending sleek animations, smooth transitions, and modern responsiveness for an engaging user experience. Creativity meets interactivity in a visually stunning interface! **Portfolio**

SKILLS

- React.js, TypeScript, Redux toolkit, React Query.
- Bootstrap, Tailwind.
- Problem Solving
- Scrum

GOAL

Aim to continuously refine expertise in front-end development by exploring innovative web design techniques and staying current with emerging trends. Focused on creating intuitive, user-friendly interfaces that enrich user experience and experimenting with cutting-edge visual design tools.
